- ✓ An exciting position within a motivated team
- ✓ A company-wide first-name culture
- ✓ Flexible working hours
- ✓ Modern technical equipment and ergonomic workspaces
- ✓ Bike leasing
- ✓ Corporate fitness program with Wellpass
- ✓ Permanent employment contract
- ✓ Attractive and fair compensation system
- ✓ Additional pension plan options

Apply now, stating your salary expectations and the earliest possible starting date.

### YOUR TASKS

- ▶ Design and planning of international waste treatment plants, with a focus on Spanish and Portuguese-speaking markets
- ▶ Active involvement in preliminary, conceptual, approval and detailed planning
- ▶ Project management with responsibility for schedules, budgets, and quality
- ▶ Collaboration with long-standing and reliable subcontractors, independent of specific projects
- ▶ Product management for various treatment processes

### YOUR PROFILE

- ▶ Degree (Bachelor/Master) in engineering with a focus on process engineering or certified technician (m/f/d) with professional experience
- ▶ Strong practical and technical understanding
- ▶ Reliability, organizational talent and the ability to work independently
- ▶ Team spirit, project experience, attention to detail and dedication
- ▶ Sense of responsibility and flexibility
- ▶ Interest in international projects
- ▶ Fluency in English, Spanish and/or Portuguese
